## DAILY FEEDING RATES

Maintenance 0.30-0.50 kg/100 kg BW  
Light Exercise 0.60-0.75 kg/100 kg BW

### Balanced Energy with a moderate calorie level

- Provides a highly digestible, balanced source of energy for maintenance horses
- Helps prevent excitability issues for horses sensitive to high starch diets
- Reduces risk of digestive upsets associated with high starch, low fibre diets

### High Quality Protein sources, formulated to specific amino acid levels

- Supports proper muscle maintenance and development
- Improves total protein utilization

### Added Chelated Minerals

- Increase absorption
- Enhances trace mineral bio-availability for immune support, improved skin, hair and hoof quality

### Fortified with balanced levels vitamins and minerals

- Enhance immune function and overall health
- Promotes growth of healthy hooves and hair coat over time

### Increased levels of added biotin

### Added Probiotics and Prebiotics

- Increased digestion and absorption of nutrients
- Ensures consistent nutrient intake and prevents sorting.

### Highly palatable pelleted feed
